SENSOURCE

Counting Technology for the Amusement Industry

Capture the foot traffic data behind great customer experience.

Crowd Counting in the Amusement Industry

SenSource technologies are used throughout the amusement industry to optimize operations, efficiently utilize resources and ultimately improve visitor experience and increase profits.

People counting sensors count foot traffic at entrances and gates as well as calculate expected ride wait time inside the park. The system is expandable to include new features such as real-time occupancy monitoring, securing your investment well into the future.

97% or greater accurate people counting data, guaranteed

Analyze, report and share data with Vea Reporting Platform with API

More than just people counting, expand your solution with occupancy monitoring
