SENSOURCE

Casino Traffic Monitoring Solutions

Automate the task of counting guests at your casino.

The **Easiest and Most Accurate** Way to Count Your Guests

SenSource technologies are used by casinos to automate the task of counting guests.

Peak traffic times and patterns are revealed by threshold counting. Within the casino, the people counting system can be used to monitor foot traffic of specific areas, such as the gaming floor or gift shop.

97% or greater accurate people counting data, guaranteed

Analyze, report and share data with Vea Reporting Platform with API

More than just people counting, expand your solution with occupancy monitoring
