SENSOURCE

Real-time occupancy counting system

Automatically monitor the number of people entering and exiting your facility.

Tracking Occupancy, Covid & Beyond

SenSource's occupancy monitoring system provides an easy-to-use solution to count customers entering and exiting a location.

It includes historical reporting and analysis tools to ensure compliance with regulations. Data is collected by people counting sensors, a handheld app, or a hybrid.

A display unit is an optional add-on to complete the occupancy solution.

Fully automated solution using people counting sensors

Manual solution using a handheld app

Hybrid solution of sensors and handheld apps
