SENSOURCE

Real-time customer counting for retail.

Adding customer counting to your data stream unlocks your store's true opportunity.

The **Easiest and Most Accurate** Way to Count Your Customers

SenSource technologies are used by retailers worldwide for more efficient store operations. Not only do we offer the most accurate people counting system, it's also expandable to new features such as occupancy monitoring and customer journey, securing your investment for years to come.

True customer count is the base for conversion rate, prescriptive staffing, and predictive traffic. All of these metrics and more are included in your Vea Analytics subscription.

97% or greater accurate people counting data, guaranteed

Analyze, report and share data with Vea Reporting Platform with API

More than just people counting, expand your solution with customer journey
